The Samsodien Foundation NPC (TSF) recognises that without the gratuitous generosity of supporters the organisation would not be able to deliver the much needed Assist, Support, Disaster Relief and Aid to the needy and destitute. Trust is imperative for us and we are committed to being fully transparent and accountable to you.

Our Supporter Promise and Pledge clearly guarantees the following to you when you select The Samsodien Foundation NPC:

1. Donation transparency

- We value every gift, small and large, and will always put your gift to work as soon as possible.
- Donors will receive their “Donation Certificate” within 24 hours of receipt of funds in our banking account.
- We apply donations as per the donor’s request or where most needed when the donor has not specified a beneficiary programme. Donors can request confirmation of how the funds were utilised at any time.

2. Testimonies

- Your kind support will help all people of South Africa in a variety of ways. Please refer to our website, www.samsodien.co . We will share testimonies and stories of our achievements as well as the challenges we face.
- TSF was founded to provide relief aid in times of disaster and we will therefore do our best to keep you informed when a disaster strikes, the estimated number of people impacted as well as our response.
- TSF also has an Inbound service called, “Roxy Assist Services” that provides a wide range of Assist and Support Services. Reports on the utilisation of this programme will be made available upon request.

3. Protection of Personal Information and Generosity

TSF will not make cold calls (outbound) to members of the public for donations. One of our core values is that donations must be made in a gratuitous spirit.

TSF commits to never sell or make your data available. Kindly refer to our comprehensive Protection of Personal Information Policy on our website, www.samsodien.co .

4. Communication Policy

You will have the option to select if you want to receive communication and/or news from us.

Whilst respecting your rights, we would be required to communicate when it is a legal requirement.
